Que T. Le
Primary Examiner

This is in response to Applicants' election filed August 27, 2003.

Applicant's election of Group I, claims 1-30, in Paper No. 8 is acknowledged.

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The title of the invention has been changed to: "Light scanning probe apparatus using light of low coherence including a positioning mechanism".

In the claims:

Claims 31-78 have been cancelled.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach an optical scanning probe device for producing optical tomogram based on reflected light by radiating living body tissue with light comprising, among other features: a flexible sheath having a light exit and entrance portion provided in the lumen of the sheath; a flexible shaft coupled to the housing of the exit and entrance portion to transfer rotation from a driving unit; and a positioning mechanism for changing the focus position of the light from the light exit and entrance portion with respect to the outer perimeter surface of the sheath.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

I) Pfeiffer et al 5,899,860 disclose a system for determining relative position of a catheter inside the body of a patient including a correction function.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Que T. Le whose telephone number is (703) 308-4830.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
